As a **Frontend Developer** with over **1.8 years full-time and 6 months freelance**, I specialize in building responsive, user-friendly, and interactive web applications. My expertise includes modern frameworks like **React.js**, along with styling libraries like **Bootstrap** and **Tailwind CSS**, to create seamless, visually appealing user interfaces. I have hands-on experience with **API integration**, ensuring dynamic and data-driven web pages that adapt in real-time. Passionate about delivering high-quality, responsive designs and an excellent user experience across various devices. Seeking a Frontend Developer role to contribute to innovative web applications and continue growing my career.
